Subject: For Mohsen & Grant - Draft timeline and recommendations to Navy - technical and community involvement

Dear Mohsen and Grant,

I look forward to talking with you at 4 pm today. My staff have been working with DTSC staff to draft the attached for discussion:

- 1 – Overall timeline for parallel tracks of plans
- 2 – Community Involvement recommendations (a summary version and a detailed version)
- 3 – Technical recommendations (This detailed version is redacted to remove enforcement confidential items. We are working on a summary version to circulate soon).

I appreciate the substantive technical and community involvement analysis and strategizing with DTSC staff and managers Janet Naito, Nina Bacey, Asha Setty, Marcus Simpson, and Nathan Schumacher to develop these drafts for senior management review.

May I suggest these agenda items to discuss at 4 pm?

1. Overall Timeline
2. Community Involvement recommendations
3. Greenaction letter
4. Coordination process

In the mean time, to facilitate communication, Lily Lee on my staff has created a share drive folder that includes information about Hunters Point for staff in EPA, DTSC, Navy, CalEPA, etc. She has uploaded a timeline table and a contacts spreadsheet to help track this project. If you find it useful, we can all update these as needed to keep one another current.

It also includes letters from Cong. Pelosi, the Mayor, etc. for reference, and we can add more files as needed. Please do not add any files that contain information that needs to be protected as confidential. You can contact her with any questions about any details:
